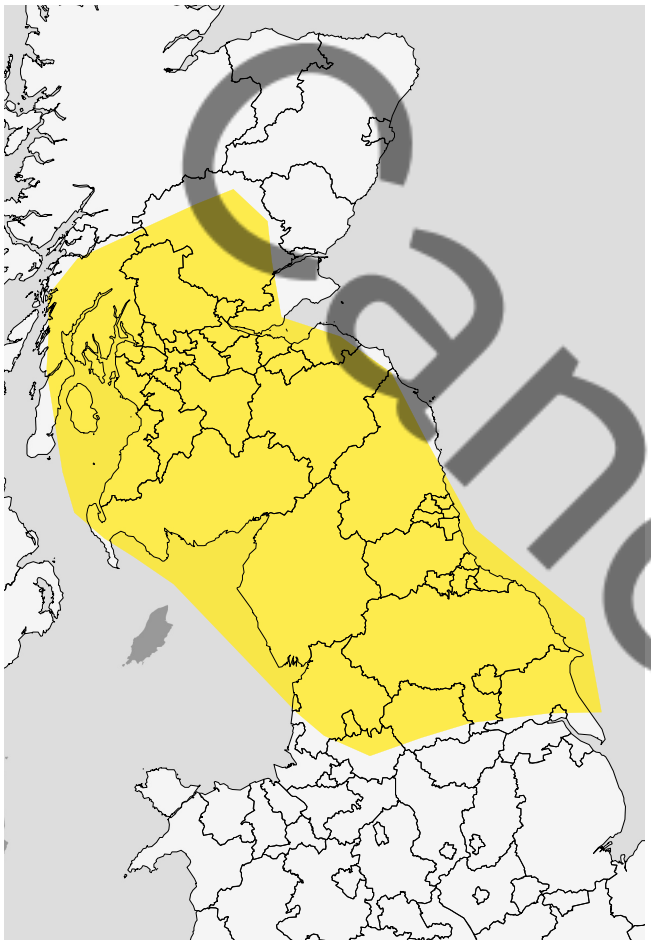
Yellow warning
Thunderstorm

Between
11:00 Sat 15 Jun 2024 and
22:00 Sat 15 Jun 2024



Slow moving thunderstorms and heavy showers may cause some disruption to travel and outdoor activities.

What to expect

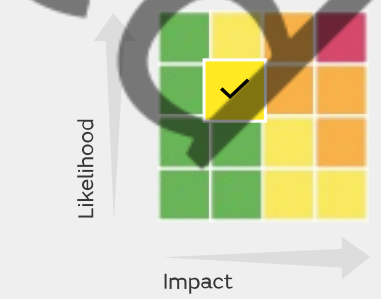
- There is a good chance driving conditions will be affected by spray, standing water and/or hail, leading to longer journey times by car and bus
- Delays to train services are possible
- Probably some damage to a few buildings and structures from lightning strikes
- Some short term loss of power and other services is likely
- Some flooding of a few homes and businesses is possible, leading to some damage to buildings or structures

Cancelled

Further details

Showers and thunderstorms are expected to become more widespread this afternoon and last into the evening. Although not everywhere will see a thunderstorm, where they do occur, they will tend to be slow moving, with lightning, hail and heavy rain. The heaviest showers and thunderstorms could produce as much as 20 mm of rain in less than an hour with one or two places seeing 30-40 mm in 2-3 hours.

What should I do?
Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.



Medium likelihood of low impacts

Issued at 08:57 Sat 15 Jun, 2024 Cancelled at 19:08 Sat 15 Jun, 2024

Yellow warning
Thunderstorm

Between
11:00 Sat 15 Jun 2024 and
22:00 Sat 15 Jun 2024

Further Details (continued)

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for cancellation

The likelihood of impacts from heavy showers and thunderstorms has decreased as these have now become more isolated and/or are weakening.
